

Pre-Conference Workshop on **Overview of Antioxidant Bioassays**

24th November 2021, 2.00 pm - 3.00 pm

Faculty of Technology, University of Sri Jayewardenepura, Homagama, Sri Lanka

Antioxidant activity is one of the excellent bio active properties exerted by bioactive foods, plants and other natural products. Thus evaluation of antioxidants and antioxidant activity and their implications in various fields such as foods, herbal, medicine and pharmacy, is of prime interest to the scientific community.

Resource Person

Dr. Kaushalya Abeysekera

PhD, PGDBM, BSc (Hons)

Senior Lecturer Gr. II
Department of Biosystems Technology
Faculty of Technology
University of Sri Jayewardenepura

"Technological transformation towards a smart future"

Target Audience

Undergraduates, post-graduates, academia, and industry

Workshop Content

- Introduction to natural and synthetic antioxidants
- Overview of antioxidant bioassay methods
- Mechanisms and applications of antioxidant bioassays
- Antioxidant bioassay establishment for research & development

**PARTICIPATION
FREE**
